Covid-19 Update

Vermillion County Health Department

Total positive cases for January 2021 are 263 compared to December 2020 positive cases total 565.

Testing site is still open for testing but we have seen a drop in testing.

Total amount of doses that have been administered as of today is 1,065 to Vermillion County residence. Out of the 1,065 people 650 have been vaccinated at the Health Department. The second round of vaccines will start on February 9, 2021. All who have received their first dose will have an appointment for their second vaccine before they leave the Health Department. The vaccine site is currently open 3 days a week Tuesday and Thursdays from 12-6p.m. and Saturday 11-3p.m. at the Health Department. A second vaccine site will open on February 16th at the 4-H building in Cayuga. The hours will be the same as the Health Department. We will look at extending hours as vaccines become available.

No major side effects have been reported to the Health Department from the vaccines.

The Indiana Department of Health announced that 65 years and older are eligible for the vaccine at this time.

Attached is the list of everyone who is eligible.
